Vehicle Glossary

Engine

Engine is the motor specification denoted by the VIN of the vehicle.

Fuel

Fuel indicates the fuel type used by the engine as designated by the VIN.

Drive

The manufacturer's designation of the vehicle's power train.

Make

A vehicle's make is the name of the manufacturer.

Year

Is the manufacturer's designated model year.

Body Style

The manufacturer's designation of the vehicle's configuration.

Window Sticker

A label required by law to be placed on the window of all new vehicles.

Consumer Partner

An entity that collaborates with a company to provide services, products, or support to customers.

SUMMARY OF VEHICLE

A vehicle is a machine designed for transportation, typically moving people or cargo. It encompasses a wide range of devices, from cars and trucks to motorcycles and bicycles. Understanding vehicle terminology can be helpful when discussing, maintaining, or repairing vehicles.

Brands or Branded

This is a permanent designation on a vehicle permit documents, title, or registration issued by the state DMV that include words or symbols to indicate the condition or status of the vehicle. Examples of brands include vehicles that have been sold for scrap, totaled vehicles, stolen or abandoned vehicles, vehicles whose odometer exceeded mechanical limits, damaged vehicles due to flood, fire, or collision.

Title History Information

The records of all title events on the vehicle. The vehicle title is the authorized proof of ownership. It can be transferred from one owner to another owner.

Title Type

Denotes the ownership documents. Each state issues a wide variety of different ownership documents. Each type of document carries with it certain ownership rights and certain restrictions or burdens. These are only the ownership documents for the lot at the time the vehicle was on sale at the auction; they do not in any way represent or attempt to represent any prior history of the lot.

Rebuilt/Reconstructed Title

Means that the salvaged vehicle has been successfully repaired to full operation and safety.

Salvage Title

Is issued to a vehicle that has been damaged beyond 75 percent of the original value. Such vehicles can be rebuilt and made roadworthy, but will never again be entitled to clear title status. Salvage title can significantly reduce the vehicle price, and is not eligible for funding by most lenders.

Personal

The owner of the vehicle registered the vehicle for personal use.

Personal Lease

A personal lease, also known as Personal Contract Hire (PCH), is a long-term vehicle rental agreement for individuals who want to use a car without buying it. In essence, you make monthly payments to use the vehicle for a set period, typically 2-5 years, and then return it at the end of the term.

Odometer codes

Are shown to reflect the known reliability of the odometer reading. "Actual" means that the odometer reading is believed to be the true and actual mileage of the lot. "Exceeds Mechanical Limits" means that the true mileage of the lot cannot be expressed because it has exceeded the capacity of the odometer to measure it, in other words it has "rolled over". "Exempt" means that by Federal Law, no odometer code is required to be displayed for this lot. "Not Actual" means that the odometer reading does not correctly reflect the mileage of the lot or it cannot be ascertained.

This Report is based only on information acquirable by as at the time of generating this report. Note that other information about this vehicle, including problems and services, may not have been reported to . You are strongly advised to use this report only as an additional but important tool, along with the vehicle inspection and test drive, to make an informed decision about the purchase of this vehicle. © 2022 .
